

ELEVA[™]
LED MAGNETIC DOWNLIGHT SYSTEM

INTRODUCING THE
ELEVA[™] LED MAGNETIC
DOWNLIGHT SYSTEM
FROM BULBRITE.

Elevate your look with ELEVA.

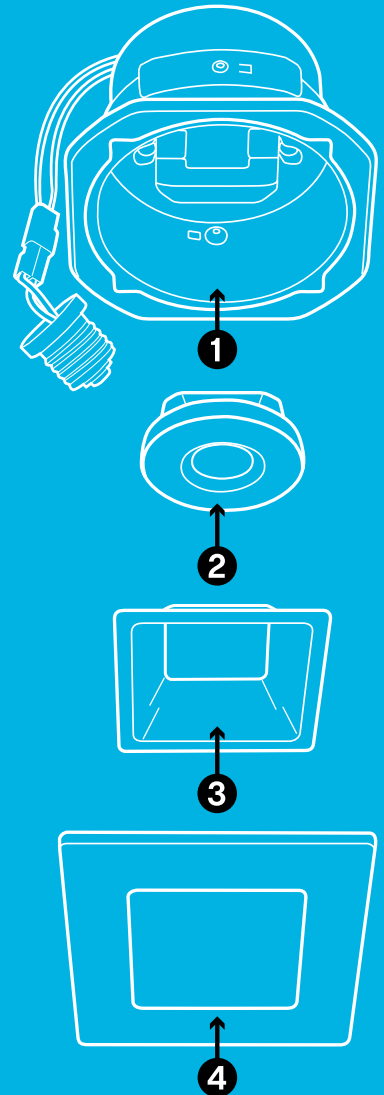

4 parts that create hundreds of possibilities.

ELEVA™ is a 4-part LED Magnetic Downlight System that allows you to quickly and easily customize the look and lighting style of any room. With over 1,800 possible color, trim, and lighting combinations, the ELEVA™ System is easy to install and provides you with a fully customizable designer look at an affordable price. Neodymium magnets securely make it possible to swap in different light engine, reflector, and trim elements — no tools required. And the LEDs offer energy efficiency with an average life of 25,000 hours.

The ELEVA™ 4-part system:

- 1 4" DOWNLIGHT HOUSING ADAPTOR**
- 2 DIMMABLE LED LIGHT ENGINE**
- 3 REFLECTOR**
- 4 TRIM**

ULTRA-STRONG MAGNETS HOLD ELEVA COMPONENTS TOGETHER SECURELY.

Ever look up at your ceiling and wish it looked as great as everything else in your home?

Right now, you probably have a different type of light bulb in each recessed can fixture. Over your kitchen counters you need a punch of light, so you screwed in the most powerful flood light available with a small beam. In your living room, you complemented a recent renovation with LED downlight retrofits...too bad you chose your paint color a few weeks after ordering your lights, because the white trims aren't really working with the beautiful deep gray you loved. And just last month, you got a special surprise that a baby's on the way! So now that home office upstairs is set to become a nursery and those spotlights you installed might be too stark for your infant's room.

Meet the ELEVA™ System: A better and easier way to treat your ceilings the way they deserve to be treated.

ELEVA™
LED MAGNETIC DOWNLIGHT SYSTEM

Elevate your look with ELEVA.

ELEVA[™]
LED MAGNETIC DOWNLIGHT SYSTEM

01 HOUSING ADAPTOR

A solid foundation for any combination of components you choose.

One of the four main components of the ELEVA™ System, the 4" Magnetic Downlight Housing Adaptor gives you the ability to quickly and easily customize the look and lighting style of any room. Equipped with a magnetic socket, the housing is compatible with Bulbrite's ELEVA™ System Magnetic Light Engines and fits most standard (E26) base cans. The ELEVA™ System Housing Adaptor is compatible with all ELEVA™ System accessories which include a variety of round and square reflectors and trims.

- Connector makes it easy to install
- Standard (E26) base socket simply screws into existing 4" recessed cans
- Fits most recessed cans. For a full list of compatible cans visit www.bulbrite.com/ELEVA and check out the Housing Compatibility Guide.

02 LIGHT ENGINE

24 Light Engines so you can choose the light that's right for your application.

The LED Magnetic Light Engine is the light source of the ELEVA™ System.

You can choose a white or black LED Magnetic Light Engine, 60W or 75W light output, warm white or soft white light, and three beam angles (narrow flood 22°, flood 36° and wide flood 60°).

- Each light engine is fully dimmable. For a list of compatible dimmers visit www.bulbrite.com/ELEVA and check out the Dimmer Compatibility Guide.
- Strong rare earth magnets made from neodymium snap your light engine securely in place making it easy to install.
- 11 Watts, 24 Volts (System voltage standard 120V)
- Long Life – 25,000 Average Hours

Actual light engine diameter is 2.75"

03 REFLECTOR

10 Reflectors so you can customize your style.

ELEVA™ reflectors are compatible with round and square ELEVA™ trims. Select a round or square reflector available in a variety of finishes (white, black, bronze, chrome, and brushed nickel). Swap out reflectors and trims to create amazing new style combinations that match any updates to your interior design! Feel free to mix round accessories with square accessories — we don't recommend square reflectors with round trims.
